

CBD TREATMENTS

MĀSK CBD Skincare inspires the journey of self-acceptance through the act of self-care and healthy skin you love! Featuring organic-certified plant-derived ingredients and full spectrum CBD oil, MASK treatments are formulated with CBD, CBG, and CBN, three of the most notable cannabinoids recognized to date for powerful anti-inflammatory, anti-bacterial and moisture retaining properties that naturally restore skin to a healthy, pure authentic state.

CBG, first introduced to the beauty industry through MĀSK, is considered the “Mother of Cannabinoids,” as without its existence, cannabis would not have the necessary foundation to produce CBD or other beneficial cannabinoids. According to research experts, CBG works deep below the surface to calm inflammation, reduce redness, balance oil production, purify pores, eradicate blemish-causing bacteria and more!

LUMINOUS

Aloe Vera and coconut water instantly boost hydration and calm inflammation to return skin to a healthy looking state. Abundant in powerful antioxidants, vitamin C and jackfruit, skin is restored to a brighter, plumper and more balanced looking complexion. Luminosity is reclaimed.

SPOTLESS

The acne and psoriasis treatment calms signs of inflammation and upset, returning skin to a calmer, clearer state. Manuka honey extract, revered for its naturally occurring antibacterial properties, works to gently combat breakouts as it hydrates and eases irritation. Helichrysum essential oil promotes healing and encourages cell turnover to lessen the look of redness and scarring. Tranquility is revealed.

AGELESS

Created with Kakadu plum extract for its unparalleled vitamin C content, the anti-aging treatment combats dullness and dryness, diminishing the look of fine lines. Pumpkin seed fights free radical damage to slow the aging process and speed up cell turnover, resulting in healthier, more vibrant looking skin.

AGELESS MAN

All of our CBD facials are suitable for men, however this calming and conditioning treatment is especially for gentlemen with facial hair. Ginseng and green tea combat aging free-radicals while a soothing dose of moisture revives dry, stressed skin and gently conditions coarse facial hair. *Cucumber Fruit Extract* and draws water toward skin and retains it, giving skin a plump, hydrated and renewed appearance. 80 minute session includes micro-current toning around the eyes and face to lift and tone skin for an even more youthful appearance.

MĀSK treatments include exfoliation, extractions, mask, CBD facial massage, and red or blue LED light therapy. 80 minute treatment includes *NuFace* micro-current facial toning treatment.
